

CYLINDER MODULES

- ❑ Specially designed for children from 18 months to 6 years
- ❑ These modules allow work on children's balance and coordination: get to overcome obstacles, learn to roll and crawl
- ❑ Possibility to convert the cylinder **Ref 0329** into a bridge by associating it with the Vario supports **Ref. 0334**
- ❑ Their different heights allow a gradual approach of first gymnastics elements
- ❑ These modules can be used by their own or combined together allowing the creation of an infinite number of pedagogical circuits

TECHNICAL CHARACTERISTICS

- ❑ Made from different densities polyurethane foam
- ❑ Phthalate-free 1,000 denier PVC cover with M2 fire rating

AVAILABLE REFERENCES

- ❑ **Ref. 0286 - CYLINDER MODULE LIME GREEN AND YELLOW**
 - Dimensions: 100 x 46 cm (LxØ) – Weight: 5 kg
 - Foam density: 23 kg/m³
- ❑ **Ref. 0329 - CYLINDER MODULE TURQUOISE AND YELLOW**
 - Dimensions: 150 x 30 cm (LxØ) – Weight: 4 kg
 - Foam density: 25 kg/m³
- ❑ **Ref. 0366 - CYLINDER MODULE FUCHSIA AND YELLOW**
 - Dimensions: 150 x 60 cm (LxØ) – Weight: 12 kg
 - Foam density: 23 kg/m³
 - With 2 carrying handles
- ❑ **Ref. 0367 - HALF-CYLINDER MODULE TURQUOISE AND YELLOW**
 - Dimensions: 150 x 60 x 30 cm (LxØxh) – Weight: 6 kg
 - Foam density: 23 kg/m³
